ALANFAL FERT. INDUSTRY Co.

شركة الأنفال لصناعة الأسمدة
ALANFAL FERT. INDUSTRY Co.

Al-Anfal Fertilizer Industry Company

Owns One of the Best Fertilizers Factories in Jordan as it is Specialized in Producing most of High Quality Fertilizers.

ALANFAL Products Covers All Types of Chemical Fertilizers; (PRG) Plant Growth Regulators, Specialty Fertilizers, Trace Elements, Amino Acids, Humic Acids, Adjuvants and Dual-purpose Products which works as Source Of Nutrients And Plant Protection.

It Has Distributors Around The Arab World Like Saudi Arabia, Egypt, Tunisia, Morocco, Libya, Iraq, Lebanon, Syria, Palestine, UAE, Yemen, Oman, Sudan, Iran, Algeria, Qatar and Kuwait etc & Working On Registering Its Products In The Rest Of Arab Countries and many others.

For more information, please visit the company's website (www.alanfalconline.net)
For complete details on each product.

DUAL-PURPOSE PRODUCTS

PHOSFAL

Liquid foliar phosphorus applied for nutrition & protection from downy mildew & blights.

Compostion: P_2O_5 : 27% - K_2O : 18 % + additives
 Application method: Foliar & Fertigation
 Application Rate: 150 ml - 200 ml /100 Lit water foliar
 500 ml / green house fertigation
 Target crops: Vegetables, fruits & field crops
 Packing size: 1 Lit , 5 Lit , 20 Lit

SUPER PHOSFAL

Powder compoud fertilizer that contains phosphite to increase plant resistance for discases & improve immunity .

Compostion: P_2O_5 : 54% - K_2O : 36 %
 Application method: Foliar & Fertigation
 Application Rate: 125-175 gm / 100 Lit foliar
 400 gm / 1000 m² water fertigation
 Target crops: Fruits , vegetables & field crops
 Packing size: 1 Kg

CURE ZN

Zn product to treat Zn deficiency and treat soil fungal diseases

NEW

Compostion: Zn 30%
 Application method: Foliar & Fertigation
 Application Rate: Foliar 50 - 75gm/ 200Lit Water
 Fertigation 200-250 gm/ 1000 m²
 Target crops: all crops
 Packing size: 1 Kg

PHOTASOL

Liquid foliar Phosphorous for nutrition and protection from downy mildew and blights

Compostion: P_2O_5 : 30% - K_2O : 20 %
 Application method: Foliar & Fertigation
 Application Rate: 100 -150 ml / 100 Lit water foliar
 500 ml / green house fertigation
 Target crops: Vegetables, fruits & field crops
 Packing size: 1 Lit , 5 Lit , 20 Lit

COMPATAL

Compatibility product used to help non compatble products to be mixed together, PH corrector , spreader and wetting agent

Compostion: Organic Acids
 Application method: Foliar
 Application Rate: 50-75 ml / 100 Lit water
 Target crops: Vegetables, fruits & field crops
 Packing size: 1 Lit , 500 ml

DUAL-PURPOSE PRODUCTS

ANCUP

Liquid organic copper with organic acids for correction of Cu deficiency & protection from downy mildew , blights & bacterial diseases

Compostion:	Organic Copper whith Organic Acids : 6%
Application method:	Foliar
Application Rate:	125 - 250 ml / 100 Lit water Foliar
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

SULFONAL

Liquid Sulfur fertilizer used for correction of Sulfur deficiency and protection from powdery mildew

Compostion:	Sulfur : 52%
Application method:	Foliar
Application Rate:	150 ml/ 100 Lit water
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

SILTOP

Specially Silicon nutrient with spreader character and control of Sucking insect and mites.

Compostion:	Silicone :10 - 13 %
Application method:	Foliar
Application Rate:	125 -150 ml/100 Lit water for insects control 25 ml/ 100 Lit water as a spreader
Target crops:	Vegetables, fruits ,Roses & palm trees
Packing size:	1 Lit , 5 Lit , 20 Lit

STICAL

High Nitrogen liquid fertilizer (spreader and sticker)

Compostion:	300 g / L Nitrogen + additives
Application method:	Foliar
Application Rate:	50 - 75 ml / 100 Lit water
Target crops:	Vegetables, grapes & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

DUAL-PURPOSE PRODUCTS

REPENTAL

A natural compound that nourishes plants and resistant to fungal diseases and has a side effect as a **bird repellent & improve its immunity** .

NEW

Compostion:	Nitrogen (N)	5%.
	Organic Matter	55%.
Application method:	Foliar	
Application Rate:	In general, 125 ml/ 100 Lit water	
Target crops:	200-250 ml/ 200 Lit water for fungal disease	
	All crops	
Packing size:	1 Lit, 250 ml	

ORGANOXIL

Fertilizer easily soluble in water to correct Cu deficiency and used to control fungal diseases and soil fungi.

NEW

Compostion:	Cupper (Cu)	30%
Application method:	Foliar & Fertigation	
Application Rate:	1 Kg/ 1000 m² Fertigation	
	150 gm/ 200 Lit water Foliar	
Target crops:	All crops	
Packing size:	1 Kg	

HIGH QUALITY FOLIAR NPK FERTILIZERS

Product	Composition	Application method	Application rate	Target crops	Packing size
ANFOLIAR 20 / 20 / 20	NPK 20 / 20 / 20 + T.E.	Foliar Fertigation	250-500 g / 200 lit water 1-2 Kg / 1000 m ²	Vegetables, fruits & feild crops	1 Kg 2 Kg 20 kg
ANFOLIAR 12 / 48 / 8	NPK 12 / 48 / 8 +T.E.	Foliar Fertigation	250-500 g / 200 lit water 1-2 Kg / 1000 m ²	Vegetables, fruits & feild crops	1 Kg 2 Kg 20 kg
ANFOLIAR 6 / 20 / 30	NPK 6 / 20 / 30 +3 MgO + T.E.	Foliar Fertigation	250-500 g / 200 lit water 1-2 Kg / 1000 m ²	Vegetables, fruits & feild crops	1 Kg 2 Kg 20 kg
ANFOLIAR 20 / 5 / 10	NPK 20 / 5 / 10 +2 MgO + T.E.	Foliar Fertigation	250-500 g / 200 lit water 1-2 Kg / 1000 m ²	Vegetables, fruits & feild crops	1 Kg 2 Kg 20 kg

SEAWEED EXTRACTS AND BIOFERTILIZERS

ANFAZYME

Liquid bio fertilizer used to increase yield and to improve fruit quality

Compostion:	Seaweed with enzymes : 20-25% , Organic matter , Vitamins , Cytokinnins and Auxins
Application method:	Foliar - Fertigation
Application Rate:	100 - 150 ml / 100 Lit water Foliar 300 - 400 ml / 1000 m ² Fertigation
Target crops:	Vegetables, fruits & field crops
Packing size:	500 ml, 1 Lit , 5 Lit , 20 Lit

SUPER FOOD

Liquid natural plant food to increase productivity and improve fruit quality

Compostion:	Plant extract : 30% - Amino Acids 1.5% Potassium 4% - Vitamins .
Application method:	Foliar
Application Rate:	15 - 25 ml / 100 Lit water
Target crops:	Vegetables, fruits & field crops
Packing size:	250 ml

SUPERZYME

Powder seaweed fertilizer to increase yield and improve fruit quality

Compostion:	O.M Seaweed (Ascophyllum nodosum) : 40 - 45% K ₂ O : 12% + Alginic Acid : 10%
Application method:	Fertigation
Application Rate:	100 -200 gm / 1000 m ²
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Kg , 20 Kg

We Help You Feed The World

HUMIC ACID FERTILIZERS

HUMINAL 15 %

Liquid fertilizer containing humic and fulvic acid

Compostion:	humic & fulvic acid : 15%
Application method:	Fertigation
Application Rate:	7 - 10 Lit / Ha
Target crops:	All crops
Packing size:	1 kg , 5 kg , 20 kg

HUMINAL 85 %

Fine crystals high concentration humic acid

Compostion:	Potassium Humate : 85 %
Application method:	Fertigation
Application Rate:	2 kg / Ha
Target crops:	All crops
Packing size:	1 Lit , 5 Lit , 25 Lit

AGRI-STIMOL

Liquid biological fertilizer for improving root & soil activity

Compostion:	Fulvic acid : 25% - Amino acids : 15%
Application method:	Fertigation
Application Rate:	350 - 500 ml / 1000m ²
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

AMINO ACID PRODUCTS (Liquid + Powder)

Product	Composition	Application method	Application rate	Target crops	Packing size
Aminofert 25%	25% Amino Acid 4% Nitrogen	Foliar & fertigation	75-100 ml/100 L water 200 ml / 1000 m ²	Vegetables fruits & grapes	1 Lit 5 Lit
Aminofert 18AH (Liquid)	12% Amino Acid 6% potassium humate	Foliar & fertigation	75-100 ml/100 L water 200 ml / 1000 m ²	Vegetables fruits	1 Lit 5 Lit
Aminofert 45% (Powder)	45 % amino acids micro elements	Foliar & fertigation	75-100 ml/100 L water 200 ml / 1000 m ²	Vegetables fruits	1 kg
Aminofert 80% (Powder)	80 % amino acids micro elements	Foliar & fertigation	75-100 ml/100 L water 200 ml / 1000 m ²	Vegetables fruits	1 kg 5 kg

TRACE ELEMENT PRODUCTS

MICROFAL MIX

Powder fertilizer used for protection & treatment of trace element deficiency on most crops

Compostion: Fe :5% - Zn: 4% - Mn : 3 % - Mg : 1.2 %
B: 1.5% - Cu : 0.5 % - Mo : 0.05 %
Application method: Foliar & fertigation
Application Rate: 100- 200 gm / 200 Lit water foliar
200 - 250 gm / 1000 m² Fertigation
Target crops: Vegetables, fruits & field crops
Packing size: 1 Kg , 20 kg

BROMIDE

Powder Foliar fertilizer for Magnesium defeciciency and for fruit set.

Compostion: B : 3.75% , Mg0 : 9.25% , Zn : 2.7% , Mo : 0.07%
Application method: Foliar
Application Rate: 75-100 gm / 100 Lit water
Target crops: Vegetables, fruits, flower & ornamental, crops.
Packing size: 1 Kg

STARFERRO 6%

Highly soluble iron chelated powder fertilizer

Compostion: Fe EDDHA : 6 %
Application method: Fertigation
Application Rate: 200 - 250 gm / 1000 m²
Target crops: Vegetables , fruits & field crops
Packing size: 1 Kg

AMAZINC

Liquid Fertilizer containing a high concentration of Manganese and Zinc to prevent fruit deformation

Compostion: Manganese (Mn) 5% - Zinc (Zn) 5%
Application method: Foliar
Application Rate: 150 - 200 ml / 200 Lit.
Target crops: All crops
Packing size: 1 Lit , 5 Lit , 20 Lit

NEW

BORTRAC

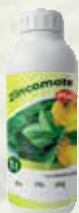

Liquid fertilizer containing boron to correct boron deficiency in plant

Compostion: Boron (B) : 10%
Application method: Foliar
Application Rate: 250 ml/ 200 Lit water
Target crops: Vegetables and Fruits
Packing size: 1 Lit , 5 Lit , 20 Lit

NEW

ZINCOMATE

liquid fertilizer to prevent and correct zinc deficiency

Compostion: Zinc (Zn) : 7%
Application method: Foliar
Application Rate: 150-250 ml/ 200 Lit water
Target crops: all crops
Packing size: 1 Lit , 5 Lit , 20 Lit

NEW

TRACE ELEMENT PRODUCTS

MICROFAL Mn 15%

High quality powder fertilizer to treat manganese deficiency in plants.

Compostion:	Mn : 15 %
Application method:	Foliar & fertigation
Application Rate:	100 -200 gm / 200 Lit water 250 gm / 1000 m ²
Target crops:	Vegetables, fruits & other crops
Packing size:	

MICROFAL Cu 15%

High quality powder fertilizer to replace copper deficiency in crops and fruit trees.

Compostion:	Cu : 15 %
Application method:	Foliar & fertigation
Application Rate:	100 -200 gm / 200 Lit water 250 gm / 1000 m ²
Target crops:	Vegetables, fruits & other crops
Packing size:	1 kg , 20 kg

MICROFAL Zn 15%

High quality powder fertilizer to improve the quality of fruits and treat zinc deficiency in the plant

Compostion:	Zn : 15 %
Application method:	Foliar & fertigation
Application Rate:	100 -200 gm / 200 Lit water 250 gm / 1000 m ²
Target crops:	Vegetables, fruits & other crops
Packing size:	1 kg , 20 kg

MICROFAL Fe 13%

High-quality powder fertilizer to treat the symptoms of iron deficiency in plants

Compostion:	Fe : 13 %
Application method:	Foliar & fertigation
Application Rate:	100 -200 gm / 200 Lit water 250 gm / 1000 m ²
Target crops:	Vegetables, fruits & other crops
Packing size:	1 kg , 20 kg

MICROFAL MgO 10%

High quality liquid fertilizer to improve the quality and size of the fruits.

Compostion:	MgO : 10 %
Application method:	Foliar & fertigation
Application Rate:	100 -200 gm / 200 Lit water 250 gm / 1000 m ²
Target crops:	Vegetables, fruits & other crops
Packing size:	1 Lit , 5 Lit

HIGH EFFICIENT LIQUID SPECIALITY FERTILIZERS

TITAN

Liquid PK fertilizer for improving fruit quality and increase fruit size

Compostion:	PK 0 / 45 / 55 with Amino Acids and Seaweed
Application method:	Foliar & Fertigation
Application Rate:	100 - 125 ml/ 100 Lit water foliar 500 ml / 1000 m ² fertigation
Target crops:	Vegetables & fruits
Packing size:	1 Lit , 5 Lit , 20 Lit

HIPOTASH 50%

High Liquid Potassium fertilizer used for fruit Coloring , earliness and treatment of potassium deficiency .

Compostion:	K ₂ O : 50 %
Application method:	Foliar application & fertigation
Application Rate:	5 - 10 Lit/Ha 100 fertigation 100 - 200 ml/ 100 Lit water foliar
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

STARAPP

High liquid transparent Phosphorous fertilizer

Compostion:	P ₂ O ₅ :44 % , N : 13%
Application method:	Fertigation & Foliar
Application Rate:	500 ml/1000 m ² Fertigation 100-125 ml/100 Lit water
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

CALPHOSIKA

Liquid foliar fertilizer to enhance fruit quality and coloring

Compostion:	P ₂ O ₅ : 26%, Ca: 5%, N: 3%
Application method:	Foliar
Application Rate:	150 - 175 mL / 100 Lit water
Target crops:	Fruits , vegetables & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

ANFIRON 6%

Liquid fertilizer to treat symptoms of iron deficiency

Compostion:	Fe : 6%
Application method:	Fertigation
Application Rate:	250-500 ml/ 1000 m ² fertigation
Target crops:	Fruits , vegetables & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

HIGH EFFICIENT LIQUID SPECIALITY FERTILIZERS

S - NITRO

Safe Liquid Slow release Nitrogen fertilizer for foliar application

Compostion:	Nitrogen (N) : 31 %
Application method:	Foliar (completely safe formula)
Application Rate:	150 - 175 ml / 100 Lit water
Target crops:	Vegetables, fruits & field crops
Packing size:	1 Lit , 5 Lit , 20 Lit

RADIX

Liquid Fertilizer to stimulate Root Growth, Increase Root Volume

NEW

Compostion:	NPK 4/5/3 + Organic Matter : 25%.
Application method:	Fertigation
Application Rate:	200-250 ml/ 200 Lit water 500 - 750 ml / 1000 m ² fertigation
Target crops:	Vegetables, fruits, nurseries
Packing size:	1 Lit , 5 Lit , 20 Lit

HOGOFOS (DKP)

Liquid Nutrient PK fertilizer

Compostion:	P ₂ O ₅ :33%: - K ₂ O : 42%
Application method:	Fertigation
Application Rate:	2- 3 Lit / 1000 m ²
Target crops:	Vegetables , fruit
Packing size:	1 Lit , 5 Lit , 20 Lit

HIPOTASH 36%

High liquid Potassium fertilizer used for coloring & early production

Compostion:	K ₂ O ₅ : 36% - Sulfur : 25%
Application method:	Fertigation & Foliar
Application Rate:	500 ml- 1 Lit / 1000m ² Fertigation 150 ml/100 Lit water
Target crops:	Vegetables , fruits & Feild crops
Packing size:	1 Lit , 5 Lit , 20 Lit

PLANT GROWTH REGULATORS (PGR)

ANFATON

Powder PGR used to increase fruit set and improve plant growth

Compostion:	Naphthalene acetamide (NAD) : 1.2 % Naphthalene acetic acid (NAA) : 0.45 %
Application method:	Foliar
Application Rate:	60 gm / 100 Lit water
Target crops:	Squash , pepper , eggplant , melon water melon & olive trees
Packing size:	100 gm , 1/2 kg , 1 kg .

FERTON

Liquid PGR used to increase fruit set and improve plant growth

Compostion:	naphthalene acetamide (NAD) : 1.2 % naphthalene acetic acid (NAA) : 0.45 %
Application method:	Foliar
Application Rate:	60 ml / 100 Lit water
Target crops:	Squash, pepper - eggplant - melon watermelon - olive
Packing size:	500ml , 1 Lit

TRIAUXIN

Powder PGR used to increase fruit set and quality

Compostion:	Naphthlene Acetamide(NAD) : 1.25 % Naphthalene Acetic acid (NAA) : 0.5 % BNOA : 1.5 %
Application method:	Foliar
Application Rate:	50 gm / 100 Lit water
Target crops:	Vegetables , fruits & other crops
Packing size:	100 gm , 500 gm , 1Kg

ANFASTAR 5%

Liquid Fruit Setting PGR for tomato, pepper & eggplant

Compostion:	BNOA : 5 %
Application method:	Foliar
Application Rate:	3 - 5 ml / Lit water on flower cluster 50 mL / 100 Lit water on all plant
Target crops:	Tomato, eggplant & peppers
Packing size:	100 mL , 250 mL

ANFASET 10%

Liquid fruit setting PGR for tomato, pepper & eggplant

Compostion:	BNOA : 10%
Application method:	Foliar
Application Rate:	1 - 1.5 ml/ 1 Lit water on flower cluster 50 mL / 100 Lit water on all plant
Target crops:	Tomato, eggplant & pepper
Packing size:	100 ml , 250 ml

PLANT GROWTH REGULATORS (PGR)

AGRIFLORAL

Liquid PGR used to increase fruit set and to prevent flower drop

Compostion:	Seaweed : 5 % - BNOA : 0.13 % 4-CPA : 0.13 %
Application method:	Foliar
Application Rate:	100 ml /100 Lit water on all plant
Target crops:	Tomatoes , pepper & eggplant
Packing size:	100 ml , 250 ml

PARATONIC

Liquid PGR used to increase fruit set & increase yield

Compostion:	Compound Sodium Nitrophenolates : 2.8% +NAA
Application method:	Foliar
Application Rate:	50 ml / 100 Lit water
Target crops:	fruits & zucchini
Packing size:	250 ml

ETHIOFAL 48%

Liquid PGR used to enhance coloring and fruit ripening

Compostion:	2- chloroethyl phosphonic acid : 48%
Application method:	Spray on leaves and fruit
Application Rate:	100 - 175 ml / 100 Lit water
Target crops:	Tomatoes , grapes, pears, apples plum & melon
Packing size:	1 Lit

TOMASET

Liquid fruit setting PGR for tomato, pepper & eggplant

Compostion:	4-CPA : 0.7%
Application method:	Spray on Flower clusters
Application Rate:	2 ml / 1 Lit water
Target crops:	Tomato & eggplant
Packing size:	100 ml , 250 ml

Promo GA4 / 7

Liquid Plant growth regulator

Compostion:	(6 - benzyl Aminopurine (6 - BA)) : 1% gibberellic acid GA 4/7 : 1.8 %
Application method:	Spray on flowers & fruits
Application Rate:	15 ml / 100 Lit water
Target crops:	Apple , cherries , pear & Banana seedlings
Packing size:	100 ml , 250 ml

PLANT GROWTH REGULATORS (PGR)

BRASSO

NEW

Plant Growth Regulator to increase production and improve fruit quality

Compostion:	14-Hydroxylated brassinosteroid) : 0.01%
Application method:	Foliar
Application Rate:	100 ml/ 200 Lit water
Target crops:	all crops
Packing size:	1 Lit

ACTIVE ROOT

NEW

Liquid / Powder Rooting hormone for hard, medium and soft cuttings

Compostion:	For Liquid: IBA : 10 gm/Lit.
Application method:	Fertigation
Application Rate:	100 ml/ 1 Lit for Soft 100 ml/ 500 ml for medium 100 ml/ 200 ml for Hard
Target crops:	Hard, medium and soft cuttings
Packing size:	100 ml

Anfalex 10

NEW

PGR used to increase flower, Flower Set, side branches

Compostion:	GA3: 10 %
Application method:	Foliar Application
Application Rate:	50 gm/ 1000 Lit water
Target crops:	Vegetables, Fruits
Packing size:	50gm, 100gm & Tablets

Genan

NEW

PGR used to increase flower Set, enhance fruit coloring

Compostion:	GA3: 2 % - NAA: 1 % - Glycine : 80%
Application method:	Foliar Application
Application Rate:	350 gm/ 1000 Lit water
Target crops:	Vegetables, Fruits
Packing size:	350 gm

SOLANASET

NEW

Natural product to increase flowering set, fruit stability , increase production and fruit size

Compostion:	NPK 3.75/ 4.5 / 10.5 + O.M : 30%
Application method:	Foliar
Application Rate:	4 ml/1 Lit water on Flower Cluster
Target crops:	all crops
Packing size:	100 ml

CALCIUM PRODUCTS

ANFACAL

Liquid calcium fertilizer to treat Ca deficiency and blossom end rot

Compostion:	N : 15 % - CaO : 26 %
Application method:	Foliar & Fertigation
Application Rate:	100-150 ml/100 Lit water Foliar 250 ml / 1000 m ² Fertigation.
Target crops:	Vegatables, & fruits
Packing size:	1 Lit , 5 Lit , 20 Lit

CAB

(Calcium + Boron) Powder product used to improve plant growth and for treating Ca & B deficiency

Compostion:	CaO : 20 % - B : 3 % .
Application method:	Foliar & Fertigation
Application Rate:	125 gm / 100 Lit water foliar 250 gm / 1000 m ² fertigation
Target crops:	Vegatables, & fruits
Packing size:	1 kg , 5 kg

ANFACAB - L

High quality Calcium product to treat Ca & B deficiency

Compostion:	CaO : 20% - B : 1.5 % - N : 12 %
Application method:	Foliar & Fertigation
Application Rate:	100-150 ml / 100 Lit water foliar 250 ml / 1000 m ² fertigation .
Target crops:	Vegatables, & fruits
Packing size:	1 Lit , 5 Lit , 20 Lit

SPEED CAL-Mg

Liquid Calmag fertilizer for treating Ca & Mg deficiency

Compostion:	CaO : 16 % - N: 13 % - MgO : 6 %
Application method:	Foliar & Fertigation
Application Rate:	150-250 ml / 100 Lit water foliar 2 - 3 Lit / 1000 m ² fertigation
Target crops:	Vegatables, & fruits
Packing size:	1 Lit , 20 Kg

Water Soluble NPK + T.E Fertilizers (Powder)

Product	Composition	Application method	Application rate	Target crops	Packing size

Special Products

APP

Ammonium poly phosphate clear liquid fertilizer that provide the plant with it's essential needs of phosphorus & nitrogen .

Compostion: Phosphorus : 52% - Nitrogen : 15 %
Application method: Foliar & fertigation
Application Rate: 1-2 Lit / 1000 m² - 200 Fertigation
 250 ml/100 Lit water foliar
Target crops: Vegetables , fruits & field crops
Packing size: 1 Lit - 5 Lit - 20 Lit

CATS

a clear liquid calcium thiosulfate product that used to reduce the harmful effects of salts ,such as sodium in the soil

Compostion: Calcium oxide : 9 % - Sulfur : 10 %
Application method: Fertigation
Application Rate: 1 Lit / 1000 m²
Target crops: Vegetables , fruits & field crops
Packing size: 20 Lit

KTS

Superior plant food solution as a clear liquid source of potassium and sulfur (Potassium thiosulfate)for optimum crop production

Compostion: Potassium : 36 % - sulfur : 25 %
Application method: Foliar & fertigation
Application Rate: 2 - 3 Lit/1000 m² fertigation
 200-250 ml/100 Lit water foliar
Target crops: Vegetables , fruits
Packing size: 1 Lit - 20 Lit

Trisert

A clear liquid source of foliar nitrogen and boron that contain the patented slow release , non -burning Trizone closed ring formulation and also countains Boron, an essential nutrient.

Compostion: Nitrogen : 31 % - boron : 0.5 %
Application method: Foliar & fertigation
Application Rate: 50 - 100 ml / 100 Lit water Foliar sticker
Target crops: Vegetables , fruits & field crops
Packing size: 1 Lit - 5 Lit - 20 Lit

ATS

Clear Liquid Ammonium Thioslfate solution that helps in increasing yields by providing the crops with its essential of N & S.

Compostion: Nitrogen : 15% , Sulfer : 34 %
Application method: Fertigation
Application Rate: 1-2 Lit / 1000 m²
 250 ml/100 Lit water foliar
Target crops: Vegetables , fruits & field crops
Packing size: 20 Lit
